Knowledge for a Clean Energy Future

Newsletter n° 8, February 2020

Enel Foundation is a non-profit organization, recognized as the World's Best Organization Brand in the energy space at the Charge Awards 2019.

Enel Foundation focuses on clean energy's crucial role in ensuring a sustainable future for all. We conduct research and education exploring the implications of global challenges in the energy domain. We operate in partnership, at the intersection of business and society leaving no one behind in the energy transition.

TOP STORY

Open Africa Power 2020: Energy Training in South Africa celebrates legacy of Nelson Mandela

61 students from 16 countries hosted at the University of Cape Town's Graduate School of Business (UCT GSB) for the third edition of Open Africa Power (OAP). The flagship academic training started by Enel Foundation to empower a new generation of leaders to drive Africa's energy transition also announced a new partnership with Nelson Mandela Foundation.

COMING SOON

Open Innovation in Italy

Enel Foundation and LUISS are conducting a research on Open Innovation (OI) in Italy, analyzing its practice in the local context in order to assess current characteristics and identify possible future developments. The objective of the three years research project is to find an indicator able to analyze the past trends and inform the future ones.

Fulbright internships

Dozens of U.S. students have applied for an internship at Enel Foundation, offered in partnership with the Fulbright Commission in Italy and the Study Abroad Engagement Grant (SAEG). The winners of the four scholarships will be announced by March and later in the year they will be working at the Enel Foundation's headquarter in Rome supporting senior researchers in their research activities and specific dissemination projects.
