

Enel Foundation is a non-profit organization.

Enel Foundation focuses on clean energy's crucial role in ensuring a sustainable future for all. We conduct research and education exploring the implications of global challenges in the energy domain. We operate in partnership, at the intersection of business and society leaving no one behind in the energy transition.

TOP STORY

New partnership with the World Meteorological Organization

March 23, 2022

On World Meteorological Day, Enel Foundation is glad to announce a newly established partnership with the World Meteorological Organization. The collaboration aims to foster research activities to tackle areas of mutual interest, including the development of technical analyses, data gathering and common publications on **topical weather, climate or water-related services**.
