

ENEL FOUNDATION @COP27 – ADVANCING GLOBAL CLIMATE ACTION THROUGH RESEARCH, EDUCATION AND KNOWLEDGE PARTNERSHIPS

Enel Foundation has actively participated to the activities of COP27 in Sharm el Sheikh, intervening in various panel and events in the Blue and Green zones during the two weeks of the Conference. This was the opportunity to disseminate the results of Enel Foundation's research activities (CEET, WMO, Società Botanica Italiana), to launch new cooperation initiatives with key international climate and energy players (OAP 2023, YETC), and to generally contribute to the debate on hot topics debated in the framework of COP27 (Harvard, UN Global Compact).

TOP STORY

Enel Foundation event on the detection and attribution of methane emissions

Enel Foundation, in partnership with HEEP Harvard Kennedy School Executive Education, presented an official UNFCCC side-event at the Thutmose Room, exploring the detection and attribution of methane emissions and how this gas can inform the

design and implementation of climate-change policy, helping to achieve the goals of the Global Methane Pledge.

RESEARCH

2022 State of Climate Services Energy Report presented by the World Meteorological Organization

At the “Science for Climate Pavillion” at COP27, the World Meteorological Organization (WMO) presented the "2022 State of Climate Services: Energy Report", produced in cooperation with Enel Foundation and other partners. The event highlighted the report’s findings, aimed at helping countries, funding agencies and development organizations to support the energy transition, with Enel Foundation stressing the role of weather and climate forecasting services to make the transition successful and secure

EDUCATION

Enel Foundation launches the sixth Open Africa Power program

At COP27 on 10 November, Enel Foundation announced the sixth edition of its Open Africa Power program, organized in partnership with Sustainable Energy for All. The event discussed the opportunities made available by Open Africa Power, putting women and youth at the forefront of the energy transition. It featured remarks from SEforALL’s Senior Director Tracey Crowe and Enel Foundation’s Deputy Director Christian Zulberti.

PARTNERSHIP

CEET presents a statement on the availability of clean energy technology

The Council of Engineers for the Energy Transition (CEET) held a panel in the UN Climate Change Global Innovation Hub (UGIH) Pavilion in the Blue Zone, delivering a statement on

Nome strategia

engineering solutions for the energy transition, focusing on clean energy technology and the key challenges to its deployment. The panel discussion was wrapped up by Carlo Papa, Managing Director of Enel Foundation.

PARTNERSHIP
Youth Energy Transition Commission at the SDG7 Pavilion

During Youth Day at COP27, the Youth Energy Transition Commission (YETC) was launched at the SDG7 Pavilion. YETC aims at engaging with young people interested in driving the energy transition, providing a platform for information, knowledge exchange and collaboration to global youth working on SDG7. Enel Foundation is senior partner for the initiative, run under the guidance of Sustainable Energy for All (SEforALL).

ADDITIONAL EVENTS
Enel Foundation presented a position paper on sustainable supply chains

Enel Foundation took part in an event organized by the UN global compact Network Italia in the COP27 Green Zone, to launch and discuss the Position Paper on “Sustainable supply chains: responsibilities and opportunities for businesses”. Our Senior Researcher Nicolò Sartori presented Enel Group’s circular economy supply chain policies, along with other key institutions and industrial players.

ADDITIONAL EVENTS
Enel Foundation joined WWF in the effort to increase effectiveness of nature-based solutions to tackle climate change

Enel Foundation took part to a closed-door roundtable led by Manuel Pulgar-Vida, Global leader of Climate & Energy at WWF International to discuss how to collectively raise

ambition on nature-based solutions, incentivizing and improving private sector investment into the protection, restoration and conservation of existing ecosystems. Enel Foundation brought into the discussion the approach of its recently-launched project on reforestation, launched in partnership with the Società Botanica Italiana.
